Professional Summary

Full-Stack .NET Core and Angular engineer with 2.6+ years delivering multi-tenant SaaS products (quoting/CRM, HR/payroll/attendance) end to end with ASP.NET Core 8, C#, Angular 17/19, and SQL Server. Architected a tenant-isolated EF6 data layer that serves multiple enterprise client environments from a single codebase, built REST APIs secured with JWT and RBAC, and delivered real-time (SignalR) and background-job (Hangfire, Twilio) workflows. Applies Clean Architecture, SOLID, and 3-tier design; designed a service-based CQRS (MediatR) project with RabbitMQ, Redis, and Docker. Promoted from Trainee to Software Engineer within six months.

Technical Skills

Backend & APIs: C#, ASP.NET Core 8, ASP.NET MVC 5 / Web API 2, REST APIs, Entity Framework Core / EF6, AutoMapper, JWT, RBAC
Frontend: Angular 17/19, TypeScript, RxJS, Reactive Forms, HTTP Interceptors, ApexCharts
Database: SQL Server (T-SQL, Stored Procedures, Query Optimization)
Architecture & Patterns: Clean Architecture, SOLID, 3-tier (API/BAL/DAL), Multi-tenant Data Isolation, CQRS (MediatR)
Messaging, Caching & Containers (project-level): RabbitMQ, Redis, Docker
Real-Time & Background Processing: SignalR, Hangfire, Twilio
Testing & Tools: xUnit, Git, HiQPdf, EPPlus
Cloud: Azure fundamentals

Professional Experience

Software Engineer, Full-Stack .NET & Angular (promoted from Trainee, Nov 2024) — Verve Systems Pvt Ltd May 2024 – Present

CottageCare Suite — Multi-tenant commercial SaaS **Nov 2025 – Present**

- Architected a tenant-isolated data layer in EF6 with a custom DynamicDbContext pattern, serving multiple enterprise client environments from a single codebase.
- Built 25+ REST API modules in ASP.NET MVC 5 / .NET 4.8 for room-based quoting, competitor-tier pricing, crew scheduling, and customer onboarding across three integrated products.
- Automated SMS and email follow-ups with Hangfire background jobs and Twilio, replacing manual outreach.
- Implemented real-time notifications and team chat with SignalR, giving staff live updates without page refresh.
- Delivered 20+ Angular 17 modules, including a Kanban CRM board and ApexCharts dashboards, with PDF and Excel report exports via HiQPdf and EPPlus.
- Diagnosed and resolved production defects in authentication, SMS OTP, Google Ads conversion tracking, and room-rate calculation.

VIS5 — Enterprise HR, Payroll & Attendance SaaS **Nov 2024 – Oct 2025**

- Engineered ASP.NET Core 8 APIs with EF Core and SQL Server across the Payroll, Attendance, HR, Projects, and Business Management modules.
- Optimized slow SQL Server queries and stored procedures, reducing API latency at peak load.
- Secured API endpoints with JWT authentication and role-based access control (RBAC).
- Built Angular 19 components with reactive forms, RxJS pipelines, and centralized HTTP interceptors.
- Structured the codebase with Clean Architecture and SOLID principles, and covered core business logic with xUnit tests.

Software Engineer Trainee **May 2024 – Oct 2024**

- Implemented ASP.NET Core REST APIs on a 3-tier (API/BAL/DAL) architecture and contributed to code reviews; promoted to Software Engineer within six months.

Key Projects

DSA & Code Execution Platform | ASP.NET Core 8, Angular, RabbitMQ, Redis, Docker, SQL Server

- Designed a code-practice platform with Clean Architecture and CQRS (MediatR), split into separate services for problems, submissions, and users.
- Decoupled submission processing with RabbitMQ, cached frequently read problem sets in Redis, and containerized the services with Docker.

Education

Master of Computer Applications (MCA), Computer Science — GIET University, Gunupur, Odisha, India Nov 2022 – May 2024

Bachelor of Science, Physics — Utkal University, Odisha, India Jun 2018 – Sep 2021

Certifications

Introduction to Programming Using Java — HackerRank
Microsoft Azure Fundamentals (AZ-900) — self-study of concepts: Blob Storage, Function Apps, App Service
